

## 6060LED-Decor RECESSED CEILING LIGHT

### 6060LED-Decor CEILING LIGHT

- 6000°K cold light.
- Clean design.
- Illuminated area  $\approx 1.2 \times 1.2$  m.
- LED Technology.
- Compatible with any false ceiling.
- Homogeneity of the luminous flow.
- No maintenance.

## THE LED TECHNOLOGY

Too often ignored, general lighting, whether it is inappropriate, is a cause of tiredness (visual and physical), but also of headaches, and eyes troubles. Thus, it is important to equilibrate the luminous flow of a room. Gamain propose a lighting solution with cold light which combines performance, design and LED Technology. These ceiling lights also fit perfectly in a reception area or every environment which requires a qualitative cold light.

The decor associated with the ceiling light will create a pleasant atmosphere within your working environment and a perfect optical illusion.

### FEATURES

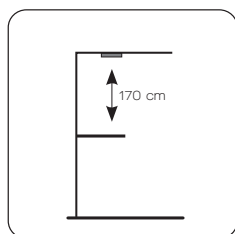

|   |
|---|
| Distance from the worktop in cm: 170                              |
| Illumination Lux at 170 cm: 600                                   |
| Colour temperature in °K: 6000                                    |
| Illuminated area in m: 1.2 x 1.2                                  |
| Dimensions (LxH) in mm: 595 x 595 x 11                            |
| Weight in Kg: 3,85  |
| Consumption in Watts: 50W   |
| Power source: 100-240V 50-60Hz                                    |
| Colour: white   |
